As you enter this condominium you immediately notice the inviting open floor plan which creates a fluid feel between the extremely comfortable luxurious living space, dining area and well appointed kitchen with stainless steel appliances and granite countertops.

One of the highlights of this condo is the oversized outdoor balcony which has plenty of room for relaxing with a cold beverage and enjoying the multitude of wildlife as the monkeys, sloths, toucans, macaws and more pass in front of you. The views of the Pacific Ocean are expansive from the balcony, living area and kitchen.

Both bedrooms are large, inviting and well appointed. The primary bedroom has a large ensuite bathroom and a walk in closet for storage.

The location is unbeatable being in the center of Manuel Antonio situated within walking distance to most of the area's restaurants, bars, shopping and entertainment options. There is 24 hour gated security with secure covered parking and keypad entry that makes this an ideal location for an owner that is away for long periods of time and does not want to worry about security while they are out of town. This attractive combination of luxury, location and security at this price point does not come along often. Please inquire for a showing.
