

VILLA MYMOSA PENTHOUSES

MANUEL ANTONIO

Essentials

List Price:	\$230,000
Beds:	2
Baths:	1
Size:	1,744 sq.ft.

The Penthouses at Villas Mymosa are quite simply some of the best values and investment opportunities in the Manuel Antonio area.

Currently, there are two adjacent residences available at the project, each with an incredible price of \$189,000. The condos can be purchased individually at this price, or a savvy investor could purchase both and control the entire top floor of this boutique development and condo/hotel.

Each condo features an open floor plan which takes full advantage of the Pacific's natural lighting and refreshing breezes. The top floor location provides huge elevated ceilings throughout the living space and bedrooms, while each condo comes with a fully equipped kitchen, living and dining area with a nice open concept.

The condos boast two large bedrooms and an enormous bathroom, and one of their most unique and distinguishing elements are the dual front and back terraces. These are large covered front terraces that overlook the pool and restaurant area, and equally expansive, private back terraces with beautiful views of tropical rainforest and mountainside.

Villa Mymosa Penthouses are part of a strong rental program which is managed by the Villas Mymosa administration, making the case for a great, turnkey ready investment. The location is IDEAL, as it's strategically situated on a halfway point between Quepos and Manuel Antonio. You are just minutes from Marina Pez Vela and the beaches of the area, but in a quiet setting where you can still marvel at the daily visits from monkeys and scarlet macaws.
