Every once in a while, a rare gem comes along that truly has it all—and this Apex estate is one of them! Set on 3.39 private acres, this custom-built home offers 5 bedrooms, 6 bathrooms and a show-stopping In-Law Cottage that's second to none. Nearly every inch has been thoughtfully renovated, from the fully reimagined kitchen—complete with a new stove, two pantries, pull-out shelving, and a new refrigerator—to upgraded LVP flooring and fresh paint throughout. Woodwork, stonework, molding and trim have all been intentionally designed with excellence. The detached cottage is truly best-in-class, with its own kitchen, living room, full bath, and washer/dryer—ideal for multigenerational living or passive income. Car lovers will appreciate the 4 garage bays, with two bays heated & cooled w/ a dedicated half bath & epoxy flooring. Outside, sunbathe out on this resort style pool patio, renovated pool bar, and don't miss the outdoor shower. Need RV or boat space? Look no further, with a dedicated RV parking pad and plenty of land for the rest of your homestead dreams. Don't let this one slip through your fingers!
